SICO is a pioneer of regional sell-side research

SICO is a pioneer of regional sell-side research, providing an expanding institutional client base with some of the highest-quality research products in the GCC. SICO Research has consistently increased both the quality and scope of its in-depth proprietary research to cover more than 85 companies across 14 regional sectors. With a long-standing direct presence in the Gulf region, the division is able to provide top-quality and insightful macro and strategy coverage for all six GCC countries.

Clients have come to regard the Bank's research division for its objective and in-depth analysis of listed companies in the GCC. Since establishment in 1995, SICO has developed a strong team of analysts made up of some of the most qualified professionals in the field.

The division's extensive coverage of all key sectors in the region and every major listed company in the GCC has enabled the team to develop unique and comprehensive expertise in the region. Aside from its high-quality research coverage, the team provides value-added services, including arranging meetings/conference calls between our analysts and management teams of companies under our coverage, based on specific client requests.

Research Portal

SICO's new research platform is a dedicated software system that automates the equity research process. Launched in 2012, it has enabled us to offer clients an interactive platform through which you can access SICO's research products and services at your convenience.

If you are a SICO client, you can access specific country, sector, and company reports, including our recommendations and product listings as well as comparative financial information in Excel format today by clicking below.

SICO's Research is exclusively available only to our clients. If you are our client or are interested to do business with us, please register on our portal and we will process your request.
