AIQoD

EXPERIENCE
THE FUTURE OF EXPENSE MANAGEMENT
WITH GEN AI-POWERED AUTOMATION

Managing expense claims efficiently is crucial for any organization, and AIQoD's Automated Expense Claim Processing solution is designed to transform this process. With just a simple click of a picture of the bill, the AIQoD module automatically extracts key details, classifies expenses, and processes claims through intelligent workflows.

The platform automates every step of the expense management process, from capturing claims to final reimbursement. With advanced OCR and AI-driven Capabilities, the solution ensures faster processing

Process Flow

Employees upload expense bills

OCRi to Extract key data (e.g. Bill Number, Amount, Expense Category)

Expense Classification

Claim Review & Monitoring

Claim Processing and Alerts

Budget Monitoring

Unified Platform for Expense Claims:
Centralized portal for submitting and managing all expense claims, integrated with internal systems and SAP.
